Supervisor Kimball opened the meeting and led all those present in the Pledge of Allegiance. A moment of silence was observed for those serving in the military.

Supervisor Kimball opened the public information meeting. The attached preliminary cost estimate sheets were distributed and explained by Attorney Richard Olson. This information was assembled by Chatfield Engineering who has worked on several water districts throughout Monroe County. The Town of Clarkson Highway Department would take lead construction on this water project with the Parma Highway Department assisting. There would be 36 parcels in the proposed district - 29 in Clarkson and seven in Parma. When the work is completed, the water line would then be turned over to the Monroe County Water Authority to maintain. The Town of Clarkson, along with the Town of Parma, would just manage the debt.

All Clarkson Parma Town Line Road property owners that were present were given the opportunity to ask questions. Supervisor Kimball informed those present that the involved residents will be notified by mail when petitions indicating their interest in joining the proposed water district are available. Those residents will need to stop at their respective town halls during business hours to sign. Supervisor Kimball closed the public information hearing.
